

Education Impact

A national service for developers to understand education impact and to optimise contributions

Turley
Economics

Our Education Impact service enables you to:

- Understand an appropriate education response to residential and mixed-use developments
- Confidently engage with Local Education Authorities and optimise education contributions
- Identify the need for education facilities to include within a development

Turley's Education Impact service can help you from early thinking on development mix, through to site promotion, planning applications, confirmation of S106 and appeals.

Clients that trust our expertise

Project examples

Grove Park, Oxfordshire

Inputs into the site masterplan for 600 homes, supporting our client in taking a proactive approach to provide education facilities

Warrington, Cheshire

Education response to Local Plan consultation to demonstrate provision is not a limit on growth

Highfields Caldecote, South Cambridgeshire

Acting on behalf of our client at Appeal to secure a 19% reduction in education contributions for a scheme for 140 homes
